PREFACE	11
INTRODUCTION	13
Architecture and Sustainability: Critical Perspectives for Integrated Design	
Ahmed Z. Khan and Karen Allacker	

PART-1
INTEGRATED DESIGN IN THEORY AND PRACTICE

1.0 Integrated Design in Theory and Practice: An Introduction	42
Karen Allacker and Ahmed Z. Khan	
1.1 Enframed Perspectives: the Social Construction of Sustainability and the Canon of Architecture	45
Steven A. Moore	
1.2 D x E = C	49
Philippe Samyn	
1.3 Sustainable Architecture: Towards Integrated Strategies from Urban design to Building component	53
Emmanuel Rey	
1.4 Forward to the Past / Back to the Future – the Vernacular Prospect of Connected Architecture	59
Andy van den Dobbelseen	
1.5 Sustainable architecture: In search for a Multitude of Empathic Solutions	63
Griet Verbeeck	

PART-2		2.8 Cultural Acceptance of Green Building Solutions: The Real Challenge	147
INTEGRATED DESIGN PERSPECTIVES		Muhammad Ashraf Shanjer	
2.0 Understand, Express, Measure, Design and Urbanism: An Introduction to Integrated Design Perspectives	69	2.9 Environmental Quality in Sustainable Building Design: Selective versus Exclusive	153
Ahmed Z. Khan and Karen Allacker		Grainne McGill and Greg Keeffe	
UNDERSTAND		MEASURE	
2.1 Sustainable Architecture as Ecology: Defining shared systemic priorities of public health and social ethics in places	85	2.10 The Limits of LEED	161
Anirban Adhya and Philip D. Plowright		Danish Kurani and Nicolas Rivard	
2.2 Sustainability in Architecture: An Evolving view of Architecture quadrature	95	2.11 Assessment and Rating Tools: A guarantee for Sustainable Successes?	169
Sílvia Maria do Carmo Alves		Bart Janssens	
2.3 Rethinking Sustainable Architecture: Beyond the Technological Approach	103	2.12 Tools for Sustainability not for the Market: A critical analysis of Environmental Assessment Tools	177
Ahlam Ammar Sharif		Adriano Magliocco and Maria Canepa	
2.4 Towards a Soft Model of Sustainability in Architecture	111	2.13 Comparative analysis of Building Sustainability Assessment Methods for Neighbourhoods	183
Michele Bonino, Davide Tommaso Ferrando and Zhang Li		Damien Trigaux, Karen Allacker and Frank De Troyer	
2.5 Sustainability and the Toilet Siphon: Transcending Green Architecture.	121	2.14 Life Cycle Energy Analysis and Building Design: A comprehensive Multi-scale Framework	191
Carlo Deregibus		André Stephan	
EXPRESS		2.15 Making the assessment right, or making the right assessment?	199
2.6 Strategies for Integrated and Sustainable Renovation: A stronger voice for Architectural Knowledge	133	Michiel Ritzen, Ronald Rovers, Zeger Vroon and Chris Geurts	
Paula Femenias and Liane Thuvander		DESIGN	
2.7 A Projet-based approach to Energy Quality as a path towards Sustainability	141	2.16 Design-Driven Critique of the “Calculative” Sustainability Concept	214
Geoffrey van Moeseke		Sylvain De Bleeckere and Pieter Cloeckaert	

Table of content

2.17 BIM-Based Building Performance Analysis in Architectural Practice: When, Why and How
Ajla Aksamija 221

2.18 Designing for Sustainability: A Framework for Sustainable Architecture built on the
Perspective of Universal Design 231
Jasmien Herssens, Marc Dujardin and Hubert Froyen

2.19 Critical perspectives on Sustainable Development: Reading the Sustainability Pillars in the
Architectural Design Process of Wang Shu 237
Aliko-Myrto Perysinaki and Yann Nussaume

2.20 Sustainability through Design: Stakeholder-based Sustainability concepts for fringe-related
Open Space Development 243
Elke Vanempen and Bruno De Meulder

URBANISM

2.21 Integrative Urban Development Concept: Horizontal and vertical approach to integrative and
sustainable urban planning 255
Emilia Rönkkö

2.22 Biourbanism as new epistemological perspective between Science, Design and Nature 263
Antonio Caperna and Stefano Serafini

2.23 Sustainable Architecture, Public Space, and the importance of Place-making 269
Samra Mohsin Khan

2.24 The Pueblo house and the Mobile Home: J.B. Jackson's Vernacular Landscape and the
Sustainable Redevelopment of Suburbia 279
Bruno Notteboom

2.25 Water sensitive urban design: A speculative exercise for the Brussels Capital Region 287
Nadia Casabella and Catalina Codruta Dobre

2.26 Leuven, 2012 299
Rotor and Robert Suermondt

PART-3

EXPLORATIONS THROUGH INTEGRATED DESIGN

3.0 Explorations through Integrated Design: An Introduction 309
Ahmed Z. Khan

3.1 Transition Into Eco-Effectiveness Is A Long-Term Process 315
Claudia Carreras, Katarzyna Jegorow, Michel Jeursen, Colm mac Aoidh, Sis Pillen and Marek Zahradnik

3.2 Learning Ecology: How to use and learn from Ecological Methods? 329
Angela Cichon, Sandro Govaert, Anna Martinez Falguera, Michala Lietavova, Marine Pirenne and Sandra Schippers

3.3 Scale and Journey in Retroactive design 341
Jacobó Abril Herrero, Eva Bóková, Sibel Gölemen, Katarzyna Ka mierzczak, Fien Rebry and Sam Verschoren

3.4 Social dimension of up-cycling: Engaging local community in brown field (re)development 351
Gemma Casellas, Monika Jaskulska, Zuzana Kneznikova, Jérémie Lichtfus, Marieke Senesael and Bram Van den Brande

3.5 Does an Architecture of Good Intentions really matter? 359
Beste Cakir, Ruben Jannses, Ivana Linderova, Emilie Otté, Silvia Iglesias Santos, Felix Schiettecatte and Mateusz Szymanowski

3.6 Imagining The New Collective 367
Katherine Seagrief, Uuganjargal Batsuuri, Francisco Gómez, Minna Hulkkonen, Adam Luka ovi and Eva Meirsschaut

3.7 Responsive Design and Governance	377
Niels Decoster, Yuka Goto, Gema Hernandez Moral, Jagoda Krawczyk, Aditya Nur Pradhana, Michael Sanchez Alfaro and Joeri van Calster	
3.8 Affordable Techniques By Design	385
Thierry Ghijsen, Georgios Ioannou, Barbora Latalova, Maciej Misiaszek, Ou Ueno, Alexander Verbeke and Inse Vanneuville	
3.9 Thinking in Shades	393
Simon Matthys, Mohamed Anes Benchaabane, Sato Wakiko, Stephanie Van Lembergen and Chawapol Watcharasukarn	
3.10 Eco-efficient design by reuse and participation	401
Johannes Alge, Charlotte Bolle, Nissim Geron, Thibaut Luyten, Charles-Antoine Pavy and Evangelos Stavrakakis	
3.11 Sustainability consciousness by design	411
Alejandra Vázquez Luna, Giulia Cenere, Andreas Karamalikis, Jebbe Houttekier, Maros Somora and Sylvain Auxent	
3.12 Fluid interpretation and flexibility in design	423
Amadé De Moyer, Marzieh Mazrouei Sebdani, Dimitri Meert, Lea Mittelberger, Hannes Monserez, Elze Schuurman and Indre Žuzeviciute	
3.13 Participatory design: From doing less bad towards doing more good	431
Stijn Wynants, Ayush Kalra, Thomas Heyndrickx, Lucas Vandeneede, Mauro Calderone, Martijn Verfaillie, Obieromah Tomi and Sam De Dobbeleer	
CALL FOR PAPERS	441
AUTHORS	443

ACKNOWLEDGEMENTS

We would like to express our gratitude to all those people who have helped us in making this book project; to all those who contributed to this book through their work as authors, reviewed the contributions and provided valuable feed-back to the authors, talked over the many intellectual challenges in the conception of this book, provided useful comments for improving the intellectual content of this book, assisted in editing, translating, proofreading, layout and design.

A few people among them need to be named in particular for their help and support: Griet Verbeeck, Anirban Adhiya, Abel Tablada, Arnaud Evrard, André Stephan, and Stefan Boeykens. Moreover, we would also like to thank in particular the contributors to the first part of this book: Steven A. Moore, Philippe Samyn, Emmanuel Rey, Andy van den Dobbelsteen, and again Griet Verbeeck.

Gudrun De Maeyer deserves a special mention: without her unwavering commitment, support, and encouragement this book project would not have been possible. The able assistance provided by Ben Robberechts in the graphic design and layout of the book speaks for itself. In general, we would like to thank all the students and staff of the KU Leuven Faculty of Architecture who participated in this book project.

Above all we would like to thank our respective families for their support and love in pursuing our intellectual endeavours: Hanne and Ayla in the case of Ahmed; Joost, Daan, and Illo in the case of Karen.

We beg forgiveness of all those who have been with us in shaping our intellectual trajectories and whose names we have failed to mention.

Ahmed Z. Khan

Karen Allacker
